EXPERIENCE

Project Leader
Agr Agile with client HCO Consulting

📅 February 2023 - Actually   📍 Indiana USA, Remote

Project Leader Angular 15/Firebase, my team is 5 people, 2 backend, 1 frontEnd, 1 Test, my ability to present and explain information in a clear, concise manner to both technical and non-technical, make activities of developer Full Stack Developer Angular Material, Spring Boot, Html, Css, Api Operation with JSON, JavaScript, typeScript, NodeJS, non-relational database, design Token with authorization, Git-Hub my account is https://github.com/jasorglez, Advanced, MySQl/SQL Server/FireBase - Advanced)Visual Basic ver xx, Delphi ver xx,JSON/XML, Power BI, PowerShell, Bash (UNIX Shell) 10 years

Project Leader
AGR Agile with client Endava

📅 January 2021 - December 2022   📍 Indiana, USA

• Project Leader, database design. we developed an erp in C# , I was in meetings with clients(USA) to organize their development

MY LIFE PHILOSOPHY

"Do good without looking at who"

MOST PROUD OF

🏆 **Active student www.platzi.com**
21 test approved

🏆 **Power BI Desktop**
Course Data science

🏆 **Course of Unit Testing with C# and .NET**
Course C# Intermediate

🏆 **Principles Solid C# With .NET**
Course C# Intermediate

🏆 **Good practice and Clean code**
Course C# Intermediate

🏆 **Django Intermediate: Testing, Static Files Django Admin**
Course Python Django

🏆 **Advanced Linq for C#**
Course advanced C# with LINQ

🏆 **Angular With API**
Course angular 12 with API

🏆 **Blazor .net core 6.0**
Course angular with .net Core 6.0

💗 **Python intermediate**
Python comprehension, lambdas, error handling

STRENGTHS

I'm a good team player   Hard-working
Eye for detail
Motivator & Leader

C, Blazor, Angular, Firebase Cloud   MySql
Database Sql Server, Sql Azure, Delphi Ver. xx
ASP.Net MVC., Api with C and Angular

LANGUAGES

Spanish   ●●●●●

from the design phase to the final product presentation phase. The Scrum methodology was handled with tasks scheduled for the week and those same ones were presented in a demo before being shown to the client, use of third party api, Use SQL Tools, Developed with Card pays, Use of JS with Angular, Technical Specification documents creation.

Team Leader Developer
Sisteli Code

📅 April 2010 - December 2020   📍 Mexico

• Project Leader, Software development, database design. • Technical Specifications Creation. • Leading the project development. • .Net Core, Use SQL Tools, Android, C, Delphi 10.3 Code refactoring for existing backend code. • Technical Specification documents creation. • Reports Development with Fast Report. • Experienced in Development, Design and development of administrative processes.

PROJECTS

BloogGeek 2022
AGR Agile

📅 1 years

Creation of a blog using different Firebase services (Type script, Angular) use and storage audio, video, images and text with records 100 000, Technologies used Java script, type script, database Clouding firebase and services, I use tools of SQL tools for show information in differents formats

Describe the tasks you see yourself doing as part of this position. I value good organization and attention to detail Team leader developer Software Be Part of the great project of the company in function, help and finish in time and forms the activities, springs assigned to the developers, creation de documentation, technical Specification and creation de Backend with database Mysql Server and Sql Server or Firebase

Inteligent ERP 2020
Sisteli-Code

📅 9 Years
